

Interdisciplinary Graduate Program in
Molecular & Cellular Biology

Spring 2013 Workshop & Seminar Series

**“YPEL3: a p53 regulated gene
involved in cellular senescence”**

Steven Berberich, Ph.D.

Professor and Chairman

Department of Biochemistry & Molecular Biology

Wright State University

Dayton, OH

co-sponsored with HCCC Cancer Genomics & Cell Growth
Program and the Department of Pharmacology

Thursday, March 28, 2013
4:00-5:00 p.m., 1289 CBRB
